

we can solve it.

# ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2014.06.04

## ENHANCEMENTS

### Billing

- Voluntary (VOL) dues products will now sort by the Pay Priority set on each product.
- New General Lookup Table - Store\_Donation\_VOLProductCodes.
  - Any VOL dues products entered into this table will display on the donation.aspx page.
  - Each VOL dues product must be set to 'Accept Payments on Web'.

### Bridges

- Web Courseworks
  - Modified bridge to create an activity if one doesn't exist when calling UpdateStatus. This can happen when credit hours need to be reported for a course that did not originate in iMIS or where the product code does not exist in iMIS.

## RESOLVED ISSUES

### General

- Adjust GetBatchDetails in the Web.Config to be case insensitive for payment gateway.
- Corrected issue with Contacts Web Service call, UpdateActivity, to update SourceCode in the activity record.

### Administrative Portal

- Corrected an issue with the impersonate functionality that was introduced in 2014.06.04.03.
- Corrected issue with Store\_Receipt\_Subject\_Lines not working with the Confirmation Letter System.

### Bridges

- Refined Training
  - Corrected issue where some variables were stored and changed the names of the variables.

we can solve it.
