

we can solve it.

ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2014.06.05

ENHANCEMENTS

Bridges

- CECity
 - Enhanced bridge to allow credits to be sent back to iMIS.

RESOLVED ISSUES

General

- Corrected issue with Canadian freight due to the fact that Canadian postal codes are not in the iMIS Zip_Code table.
- Corrected issue with image caching. Image caching now includes query string parameters (if passed to properly cache different images with the same filename, but different query string parameters).

Billing

- Corrected issue that ensures paid through dates are based on the primary dues item.

Events

- Corrected issue with event survey questions and a registrant with an apostrophe in their name causing an error.

Bridges

we can solve it.
