

we can solve it.

# ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2014.12

## RESOLVED ISSUES

### General

- Corrected issue with calendar displays (List, Schedule and Calendar) where the button for the active display was clickable and caused an error. (CW17965)
- Corrected issue with style sheet to maintain placement of calendar view buttons. (CW17957)
- Corrected issue with Coupon Generator throwing an error when the order of the Coupons table was not as expected. The order of the fields in the table do not matter. (CW19599)

### Events

- Corrected issue with email address not populating on confirmation letters. (CW18955)
- Modified event registration so that a person cannot purchase more tickets to a function than is available. (CW18431)
- Corrected issue with saving survey questions. (CW20349)

### Billing

- Corrected issue with Subscription items not updating dates correctly. (CW19939)
- Corrected issue with Paid Through Date display on the dues summary page when Bump Proration is in use. (CW19572)

### Bridges

- Digitec: Corrected issue when a blank description caused an error. (CW19545)

we can solve it.
