

we can solve it.

ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2015.04.03

ENHANCEMENTS

General

- Allow anonymous users to retrieve abandoned cart items - stores a non-expiring cookie with the current session ID. If cookies are cleared from browser items will not be remembered. (CW24019)
 - New Store_Setting:
 - AllowAnonymousCartRetrieval - Set to true to allow anonymous users to retrieve cart items.

Billing

- Allow change on all product types - this change adds 5 new settings to the ATS_DUES table to control whether someone will be allowed to change products of each type. (CW24556)
 - SectionProduct_Allow_Change - when set to true allows person to change SEC items, if false they cannot.
 - MiscProduct_Allow_Change - when set to true allows person to change MISC items, if false they cannot.
 - SubProduct_Allow_Change - when set to true allows person to change SUB items, if false they cannot.
 - VolProduct_Allow_Change - when set to true allows person to change VOL items, if false they cannot.
 - VolProduct_Always_Show - When checked, forces VOL products to always show.
- Set number of complimentary products by product type - These new fields allow you to control the number of complimentary items someone receives by product type (i.e. 2 free sections with join/renewal). (CW24432)
 - Num_Comp_Dues - Integer field to set the number of complimentary DUES items.
 - Num_Comp_Chapters - Integer field to set the number of complimentary CHAPT items.
 - Num_Comp_Sections - Integer field to set the number of complimentary SEC items.
 - Num_Comp_Misc - Integer field to set the number of complimentary MISC items.
 - Num_Comp_Subs - Integer field to set the number of complimentary SUB items.

RESOLVED ISSUES

General

- Corrected issue with product code not being populated in BO_EMAIL activities. (CW24303)
- Corrected erroneous 'thread aborted' error when searching for products that have special pricing. (CW24492)

Billing

- Correct issue of Subscriptions.BEGIN_DATE being overwritten on a dues renewal. (CW23948)

Events

- Correct issue with purchase order Orders were not creating Trans records correctly. (CW24129)
- Correct issue with search results for master products showing out-of-stock when only one item was out-of-stock. (CW24553)
- Correct issue with Event Survey Questions in iMIS versions 20.0.1 or lower because of FormDefinition table. (CW23185)

we can solve it.
