

we can solve it.

# ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2015.04.04

## ENHANCEMENTS

### General

- Modified printing of receipts and confirmations from myorders.aspx to automatically open a printer dialog box (CW24813)
- Improved performance when not showing Best Sellers or Newest Items (CW24810)

### Administrative Portal

- New report under Setup>>Financial>>Batch Settings Review to check for entities set on cash accounts when using multi-entity. Invalid or missing entities will result in an object reference error. (CW24631)

## RESOLVED ISSUES

### Billing

- Corrected issue where VOL product amount due was set to 0.00 if billed and not paid (CW24253)
- Corrected issue that caused an object reference error in getSubscriptionDetails when there are existing subscriptions (CW25125)
- Corrected issue with ATS\_DUES.BillingCategory\_Text not appearing in some situations (CW25150)
- Corrected issue with number of complimentary items and product prices are the same (CW24972)

### Events

- Corrected issue when emailing receipts for events when you are not the Bill To or Ship To ID (CW24956)

we can solve it.
