

we can solve it.

ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2016.02

ENHANCEMENTS

General

- Enhanced Immediate Add to Cart (addtocart.aspx) functionality to include CHAPT, MISC, SEC, SUB or VOL Billing items (CW27781)

RESOLVED ISSUES

General

- Corrected issue with product special pricing when adding dues to the cart (CW27745)
- Corrected issue on myorders.aspx page when there was an error displaying one order. Now if there is an error the page will show all other orders. (CW28052)
- Corrected issue when clicking the 'Save Shipping Address for this Order' button that would blank out other buttons below it (CW28069)
- Corrected issue with emailing receipts when using split cart by entity that wasn't emailing for all entities (CW27389)
- Corrected issue when special pricing is setup on a product with no price that was returning an error (CW27339)
- Added calls to existing error handler library when Online Marketplace attempts to get or create a batch and fails (CW27199)

Events

- Corrected issue when someone has an event in their cart but they are become ineligible for it due to a change in registrant class (i.e. removing dues from the cart) (CW27283)
- Corrected issue when trying to add a negative dollar function to the cart (CW27823)
- Corrected issue with speaker images not showing up if purpose field was NULL instead of empty (CW27943)
- Corrected issue with linked function quantities not updating properly (CW28051)
- Corrected issue with processing event survey questions twice (CW27622)

we can solve it.
