

we can solve it.

ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2016.04

ENHANCEMENTS

General

- When storing the Gateway Reference Number for credit card transactions the delayed capture number will now be stored in the Trans table rather than the authorization number

Administrative Portal

- Added a page to the Administrative Portal Setup section for testing the Online Marketplace's built-in error handling capabilities, and to display the current settings for error handling

we can solve it.
