

we can solve it.

ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2016.11

ENHANCEMENTS

Events

- Modified manner in which the Google map is displayed for Events to be more compatible with responsive web designs. Added stylesheet elements that can be overridden for map-container and map-container iframe. Deprecated the use of the following Store_Settings: (CW31464)
 - IntEventGoogleMapWidth
 - IntEventGoogleMapHeight

RESOLVED ISSUES

Orders

- Corrected issues with USPS Real Time Freight Pricing add-on freight calculations (CW31612, CW31228)

Events

- Changed survey question display from checkboxes to drop-downs to work better with IQA-based survey question answers in the Staff Site (CW31621)
- Corrected issue with not being able to register a newly-added record to a company roster (CW31505)

we can solve it.
