

we can solve it.

ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2016.15

RESOLVED ISSUES

General

- Added support for new MasterCard numbers starting with 2. (CW32097)
- Corrected issue with invalid characters exceeding the field limit on payment, tax and shipping screens. (CW31836)

Orders

- Corrected layout issues for receipts that include electronic content. (CW32175)

Billing

- Changed calculation of subscription through dates when using ConfigSyncSubDatesWithPrimaryDues Store_Setting to handle the case when person has been billed into the future but has not yet paid. New calculation will match the current paid through date on the primary dues item (not the bill through date). NOTE: This is not supported with multi-year subscriptions and single year dues. (CW31730)

we can solve it.
