

we can solve it.

ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: **2017.20.8953**

RESOLVED ISSUES

Dues

- Updated the connection between the ATS Online Marketplace and the ATS Webservices. (CW37592)
 - We have corrected an issue with the connection between the ATS Online Marketplace and ATS Webservices. The problem was manifested in clients who use the Marketplace for dues renewals. Clients with this issue see errors similar to the following:
 - The added or subtracted value results in an un-representable DateTime
 - Input string was not in a correct format
 - If you are using the dues module of the store for renewals and are on version 2016.22 – 2017.18.8918 and are experiencing this problem we recommend an upgrade to the latest version of the ATS Online Marketplace.

we can solve it.
