

we can solve it.

ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2018.08.9207

RESOLVED ISSUES

General

- Increased performance of coupons when the Coupons table is very large (i.e. 10,000-20,000). Also increased performance of personal coupons. (CW43829)

Events

- **Corrected issue with event questions created in the staff site that we created as 'drop-down list' but had no values defined for the drop-down list.** (CW43370)
- Corrected inconsistencies with displaying Store_Long_Titles with event functions. Not all were displaying depending on the function type. In addition, the date/time was not handled correctly. (CW43964, CW40073)

we can solve it.
