

we can solve it.

ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: **2018.26.9382**

(Note: This release also includes unofficial releases: 2018.23.9334, 2018.21.9313, 2018.19.9278)

ENHANCEMENTS

General

- Styling (CW45503)
 - Added bootstrap 3.3.7 JavaScript to application
 - Restyled the credit card entry screen to be more modern
 - Restyled the ACH entry screen to be more modern
 - Shipping Screens have restyled
- Maintenance (CW45504)
 - The appsettings report in the administrative menu will now show any missing appsettings that are expected to be included. Missing settings can cause an issue and produce incorrect results.
- Performance (CW45505)
 - Modified several methods in the webservises to call classes directly instead of calling the webservises to help with performance.
- Usability (CW45506)
 - Improved error trapping and better reporting with more user-friendly error messages.
- Added check and purchase order numbers to show on receipts. (CW45316)
- Added support for the Google Enhanced Analytics to anonymize IP addresses
 - New Store_Setting
 - ConfigGoogleAnalyticsAnonymizeIP – True/False setting. When set to true the Google Anonymizer code will be added to the script that gets added to the page. (CW46269)

Dues

- Added support for enSYNC Corp.'s Online AutoDraft. You must own enSYNC's Online AutoDraft and there is a separate license key from ATS required. (CW45500)
 - New user-defined table: ATS_Payment_Options
 - New Store_Settings:
 - PaymentCCSaveCards – True/False setting to display saved credit cards at payment time
 - PaymentOnlineAutoDraftEnabled – True/False setting to determine if Online AutoDraft is enabled.
 - PaymentPlanAvailableButtonText – Button text displayed to open payment plan window.
 - PaymentPlanDisclaimerText – Text displayed on popup window when adding a payment plan.
 - PaymentPlanEditButtonText – Button text displayed to edit payment plan options.
 - PaymentPlanHasPaymentPlanText – Text displayed when someone tries to renew online that is already enrolled in AutoDraft.
- Save Credit Cards – Added the ability to save credit cards for future use if enSYNC's Online AutoDraft is enabled. Credit card management (replacement, change expiration dates, etc.) is done in AutoDraft and outside of the ATS Online Marketplace. (CW45501)

we can solve it.

(p) 720.945.7252
(f) 720.945.7253
www.atsol.org

- New Store_Settings:
 - PaymentCCSaveCards – True/False setting to enable/disable saving of credit cards that are displayed on the payment screen for quicker checkout.
 - PaymentCCSaveCardReqCVV – True/False setting to enable/disable the requirement of the CVV number on the back of the credit card. If set to false, the credit card will be charged without sending the CVV number that may result in additional credit card fees.
- Added support for Dues List Billing. This allows a company representative to log in and pay dues renewals (no joins) for any company individuals already billed. This new process does not rebill or take the user through the dues wizard but allows them to simply select each individual for payment, add to cart and checkout/pay. A new page – dueslistbill.aspx presents the list bill. (CW45502)
 - New Store_Settings:
 - lblDuesListBillHeaderText – Text displayed at the top of the list billing page (255 characters).

Events

- Added check and purchase order numbers to registration receipts and confirmations. (CW45316)

Orders

- Added functionality to honor the Terms Code set on individual records for Orders. (CW33745, CW33728)

RESOLVED ISSUES

Dues

- Corrected use of ChapterProduct_Allow_Change and ChapterProduct_Always_Show in ATS_DUES to show the current chapters for a person but not allow change if the ChapterProduct_Allow_Change is set to false and ChapterProduct_Always_Show is set to true. (CW45507, CW43046)
- Corrected an error when dues for multiple people are in the cart and one was removed that all dues items were removed. (CW45508)
- Corrected an issue to correctly show CustomerType_Text and BillingCategory_Text in ATS_Dues when members are changing their member type and/or category. (CW45509, CW44323)
- Corrected issue when selecting a payment plan with 'required autorenewal' set to true. The system was not setting the AutoDraft payment as perpetual. (CW45923)
- Corrected error with zero-dollar orders when Online AutoDraft and 'save credit cards' is enabled. (CW46270)
