VERSION: **2018.28.9416**

## RESOLVED ISSUES

### Events

- Corrected issue when event codes start with the same string. For example, if there is an event code of 2018ANN and 2018ANNEXPO if you had registered for one you could not register for the other. This has been corrected. (CW46540)
- Corrected issue when a new Boolean (yes/no) question is added to an event that already has existing registrations. (CW46538)
