

we can solve it.

ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2018.46.9795

RESOLVED ISSUES

General

- Updated the Online Marketplace to honor the new management of cash accounts in iMIS. If a 'cash' cash account is updated in the Staff Site the Cash_Accounts.ACCOUNT_TYPE is set to 6 (historically it was set to 0). The Marketplace now honors both the Desktop and Staff Site settings. (CW48923)
 - **ATS strongly recommends all Marketplace owners on current versions of iMIS install this upgrade.**
- Corrected issue that caused the tabs in the Highlights section to not display when ShowSpecials was set to true but no specials setup (Store_Specials or Store_Specials_Events). (CW48926)
- Clarified the store administrative function to verify application settings in the administrative portal under Setup>>Verify. (CW48925)

Events

- Corrected issue when a person was set as a speaker on more than one function they were being displayed multiple times in the speaker listing. (CW48807)

Billing

- Modified dues renewal logic to allow for \$0 items using the following criteria: (CW48895)
 - Look at all items in the billing cycle for that line item in ATS_DUES (except VOL items which are excluded).
 - If any of those products in the billing cycle are also in the person's subscription collection and the line has a status of A (Active), check to see if the following conditions exist. If one exists for each subscription record they will be able to renew.
 - Has a balance due
 - Marked complimentary
 - Subscriptions.BILL_THRU is greater than or equal to the Name.PAID_THRU

we can solve it.
