

we can solve it.

ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2019.34.10494

ENHANCEMENTS

Events

- Added support for 'Allow registering others' checkbox in the staff site. The AllowRegisterSomeoneElse entry in the Store_Settings general lookup table must be set to false in order for this to work on an event-by-event basis. (CW53672)
- Improve performance when building the list when Register Someone Else is enabled. (CW53928)

Billing

- Added Pay Later option for joins and renewals: See the user's guide for detailed information. (CW53685)
 - New Store_Settings:
 - AllowDuesJoinPayLater - True/False setting that when set to true the pay later button displays on the dues summary screen for joins.
 - AllowDuesRenewPayLater - True/False setting that when set to true the pay later button displays on the dues summary screen for renewals.
 - DuesJoinPayLaterNotice – Text that displays to the user when joining and pay later option is enabled.
 - DuesRenewPayLaterNotice – Text that displays to the user when renewing and pay later option is enabled.
 - DuesJoinPayLaterButtonText – Text on button to pay later on a join.
 - DuesRenewPayLaterButtonText – Text on button to pay later on a renewal.
 - DuesJoinPayLaterButtonLink – URL of the page a person joining will be taken to on the button click.
 - DuesRenewPayLaterButtonLink – URL of the page a person renewing will be taken to on the button click.
- Added support for bump proration with enSYNC Online AutoDraft. (CW53222)

RESOLVED ISSUES

Billing

- Corrected issue with Store_Unbilled_Dues general lookup table when only specifying a product code. (CW53634)
- Corrected issue when paying someone else's dues would give the logged in nonmember member pricing. (CW53771)
- Corrected issue when/if complimentary dues items were selected at checkout. (CW53604)

General

we can solve it.
