ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: **2019.41.10596**

RESOLVED ISSUES

Events

- Corrected an issue that would cause the list of people you can register to disappear when clicking on a name in the list of people to register. (CW54826, CW54706)
- Corrected issue when a URL contains an invalid event code. If the event code is invalid/does not exist a message will now display that the event is not setup yet for taking registrations. (CW54896)

Billing

- Corrected issue with wildcard dues product codes in customer type table setup. (CW54846, CW54780)

General

- Corrected issue with On Behalf Of from the staff site and impersonation from the administrative portal. (CW54851)
