

we can solve it.

ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: **2019.42.10605**

RESOLVED ISSUES

General

- Modified handling of Store_Settings. Added additional error trapping and exception management to identify issues where settings get blanked out in memory. Also, corrected an issue with the IblBridgeNotSynchedMessage setting. It will not be shown in situations where the URL to the third-party solution is blank. (CW54987)

we can solve it.
