

we can solve it.

ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: **2019.43.10615**

RESOLVED ISSUES

Billing

- Corrected issue with paid through dates being incorrectly set because of an issue with the Marketplace selecting the wrong product code on the customer type table. Now, it only uses the primary dues item to determine the main paid through date. (CW55042)

General

- Modification to utilities used to build image whitelist domains. (CW55034)
- Corrected issue with saving event Store_Settings in the administrative portal. (CW55068)

we can solve it.
