

we can solve it.

ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2020.32.11117

ENHANCEMENTS

General

- Added notification banner when staff impersonate from the administrative portal or using On Behalf Of from the staff site. Note: using On Behalf Of from the staff site to carry over to the Online Marketplace is a customization to the staff site that ATS can assist with implementing. (CW60586)

RESOLVED ISSUES

Billing

- Remove dependency on AutoDraft dll's if AutoDraft is not licensed or on older versions of iMIS where AutoDraft is not compatible. (CW60585)

General

- Update Google Analytics to support additional use cases. (CW60828)
 - Modified Google Analytics to not append a slash if the category of the product or event type is missing.
 - Change the product description in Google Analytics to not include the name of the registrant in the title of the event.
- Corrected issue where the Continue Shopping button on the viewcart.aspx page (View Cart) was not honoring the ContinueShoppingURL Store_Setting when the cart was empty. (CW60985)
- Corrected issue with missing div tag in store search results. (CW60976)

we can solve it.
