# ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2020.43.11250

## ENHANCEMENTS

### Events

- Added additional security for event registration when appending event codes to the querystring. Event codes over 10 characters will send an error since iMIS event codes cannot be longer than 10 characters. (CW62366)

### General

- Added new Store\_Settings to configure payment type labels that display on the payment screen. (CW62401)
  - PaymentTypeACHLabel - Label for electronic check/ACH payment type displayed on payment screen.
  - PaymentTypeAdminLabel - Label for administrator options payment type displayed on payment screen.
  - PaymentTypeCCLabel - Label for electronic credit card payment type displayed on payment screen.
  - PaymentTypeGlobalPaymentsLabel - Label for GlobalPayments payment type displayed on payment screen.
  - PaymentTypePayPalExpressLabel - Label for PayPal Express payment type displayed on payment screen.
  - PaymentTypePurchaseOrderLabel - Label for purchase order payment type displayed on payment screen.
- Removed restriction on one-click checkout (no charge transactions) to support coupon use. Previously, if a coupon brought the order total to \$0 the quick checkout feature was not available. (CW62214, CW62163)

## RESOLVED ISSUES

### Billing

- Modified proration rate calculation to honor the Advance Start Month setting. If enabled in iMIS, the start date will be advanced to calculate the proration month for pricing calculations. (CW62213, CW61825)
- Corrected issue where dates on Subscription records were sometimes off by a number of hours equal to the number of hours that the server is different than Greenwich Mean Time. (CW61750, CW61589, CW60896, CW60858)

### Administrative Portal

- Added Onstream Media graphic to administrative bridge interface. (CW62382)
