# ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: **2021.26.11788**

## ENHANCEMENTS

### General

- Added carding deterrents in the Online Marketplace.  See the Carding Deterrents section in the User's Guide for details. (CW67056)
- Added ability to sort category listings in the right gutter for dues, events, and products. (CW67019)

### Billing

- The Online Marketplace does not support the ability to add subscriptions to the cart for someone else, but some external applications do.  In that situation if the person checking out is not the same person that the subscriptions is being paid for, a PAIDFOR and PAIDBY activity will be created.  (CW67209)
- Modified the receipt after checkout and the myorders.aspx page to show the orders that a person placed for someone else that created a PAIDFOR activity.  (CW67244)
## RESOLVED ISSUES

### General

- Correct coupon usage in Google Analytics when using multiple coupons during checkout. (CW67009)
- Corrected issue when clicking on a Featured Item when it is also a Best Seller. (CW67111)
- Corrected issue where adding dues or subscriptions to the cart via Quick Pay Dues could be seen in another user's cart. (CW67311)
- Corrected error when sending an email through the myorders.aspx page for a dues or invoice receipt. (CW67310)
- Corrected issue when emailing a receipt for paid open accounts receivable that resulted in a blank email. (CW67324)

### Billing

- Corrected issue when providing a hyperlink to the subscription.aspx page where the ID querystring parameter was lowercase that it would display the incorrect dates for the term. (CW67266)
- Corrected issue where only statuses of active could use Dues Quick Pay.  A change has been made that allows inactive and suspended statuses. (CW67304)

- Correct issue with displaying term dates on multi-year subscriptions when there is an existing subscription. (CW67018)
