

we can solve it.

ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2021.27.11813

ENHANCEMENTS

General

- ATS Catalog – this new additional module allows for quick searching and filtering products based on IQA's. See the ATS Catalog section of the User's Guide for more information. (CW66794, CW66691)
 - New Store_Settings
 - ConfigCatalogAPIKey – This is the API key provided by ATS.
 - ConfigCatalogCSSURL – Override CSS URL that will be appended to the catalog.aspx page. Default: blank
 - ConfigCatalogPageCount – Number of cards visible on the catalog.aspx page. Default: 24
 - ConfigCatalogPaging – True/False setting to allow for pagination when there are more items than what is set on the ConfigCatalogPageCount setting.
 - lblCatalog – Label for the heading on the catalog.aspx page.

we can solve it.
