# ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2021.32.11883

## ENHANCEMENTS

### General

- Added section in the Verify screen in the administrative portal to check for existence of the optional activity types of PAIDBY, PAIDFOR, and CCDECLINE. (CW67827)

### Catalog

- Added new Store\_Setting to control how many sub-category items are displayed before a 'See More' link is displayed to see all sub-categories. (CW68055)
  - ConfigCatalogFilterExpand – default setting is 6.

## RESOLVED ISSUES

### Billing

- Corrected issue when a person had a subscription record that was billed but not paid and beyond the grace period, the term was incorrectly calculated as the billed term instead of the new term. This applies to anniversary cycles. (CW68085)
- Update dues webservice to write the GATEWAY\_REF value in the Trans table for dues/subscription transactions with credit card payments. (CW68106)
