ATS ONLINE MARKETPLACE RELEASE NOTES

VERSION: 2021.39.11986 & 2021.40.11997

ENHANCEMENTS

Orders

- Added capability to perform real-time freight calculations with Mimeo. This is an add-on module for the Online Marketplace. (CW66547, CW66383)

RESOLVED ISSUES

General

- Modified receipts and confirmations when paying by PayPal Express. No payment method will be shown but the transaction will show as paid. (CW68994)
- Corrected issue when other cart data was appearing in the wrong cart. (CW69199)

Events

- Corrected issue when someone was registering someone else, but they were not eligible to register the 'Register' button displayed. (CW68907)

Billing

- Corrected issue where complimentary settings in ATS_DUES were not being honored with Join/Renew & Pay Later. (CW68834)
- Corrected issue with Dues Quick Pay where effective dates were being incorrectly set. The process has been changed to calculate the effective date based on the first active record with a product type of DUES. (CW69136)
- Corrected issue with renewing subscriptions where the begin date is in a prior term. (CW69314)
