

ATS' Authorize.Net Custom Payment Gateway for iMIS

Developed by Association Technology
Solutions, LLC

Who Would Be Interested?

- ▶ Authorize.Net vs. PayPal
- ▶ Credit card processing results in transaction fees
 - Fees are generally lower using Authorize.Net rather than PayPal

Features

- ▶ Take payments in iMIS using Authorize.Net as opposed to PayPal
- ▶ All iMIS functionality works exactly as you would expect. The only difference is payments will now be processed by your Authorize.Net Payment Gateway and not PayPal
- ▶ Payments made Online using RiSE and/or iMIS Public and iMIS Desktop payment are supported

Configuration and Setup

- ▶ Install ATS' Web Services
 - This will be done for you
- ▶ Update iMIS' configuration
 - Setup CC Auth Account
 - Setup Cash Accounts
- ▶ Update payments for web transactions
 - Update Web.Config file
- ▶ Update payments for iMIS Desktop
 - Use provided batch installer process

iMIS Desktop AVS Support

- ▶ Optional use Address Verification Service
 - Usually results in reduced transaction fees
- ▶ Online payments will use the shipping address for AVS
 - iMIS default functionality
- ▶ iMIS Desktop payments will allow you to choose which address in iMIS will be sent to the payment gateway
 - Preferred Mailing
 - Preferred Billing
 - Preferred Shipping

Compatibility

- ▶ iMIS Versions
 - iMIS 15
 - iMIS 20
- ▶ E-Commerce
 - iMIS Desktop
 - Public Views
 - iMIS RiSE Store
