- Attendees are muted to reduce background noise
- Remember to ask questions via the Questions panel
- Questions will be answered during Q&A after presentation is complete

Integration for All

ATS has products that integrate iMIS with dozens of third party applications!

Why use a bridge?

- Track all engagement in iMIS
- Leverage technical tools not natively included in iMIS
- Single sign-on (SSO) for ease-of-use by members

Engagement metrics

This chart displays a count of engagement activities for this contact.

- Event registrations and commerce orders include only those items that are paid in full.
- Gifts are individual donations and do not include pledges.
- Committee counts are the total active memberships in any committee.

Use this information when you talk with our constituents to encourage them to take advantage of their benefits.

What is a Bridge?

- Products that integrate iMIS with other third-party products
- Use the iMIS API's for upgradability
- Work with all versions of iMIS

What Do They Include?

- Typically include single sign-on (SSO)
- Read and write data to iMIS

Typical Flow of LMS type bridges

- Registration/e-commerce is done in iMIS
- At checkout, push registration or order to learning management system (LMS)
- Single sign-on to view the content
- Write back completion data and credit hours to iMIS

Typical Flow of Subscription Integration

- Subscription purchased in iMIS
- SSO checks subscription in real time to determine what content the person can view
- Upsell subscription to unauthorized people

Third-Party Registration

- Single sign-on using the iMIS login
- Registration system pulls registration class (member/non member) from iMIS
- Person registers in third-party system
- Activities are written back to iMIS indicating what functions the person bought

Implementation

- .NET WebServices installed on your application server
- Third party accesses the WebServices remotely
- May include an iPart at checkout

How We Built Them

- Work with third-party to setup a sandbox for testing
- Includes a user's manual and installation guide
- Are upgraded as iMIS and/or the third-party application increase functionality
