- Programs or courses?
 - curriculum vs classes
- Choose great topics
- Compelling learning outcomes
- Select and gather content
- Build structure
- Choose delivery method(s)
- Launch & continuous improvement

- iMIS
 - Keep iMIS the authoritative source
 - iMIS for eCommerce, LMS for course delivery
 - RiSE Store
 - ATS Online Marketplace
- LMS
 - LMS is authoritative source
 - Separate integration required to accounting software
- Custom
 - You're on your own

- Identify audience
 - Employees?
 - Members?
 - Partners?
 - Technical or non-technical?
- Define needs based on YOUR audience
 - Mobile is mandatory
 - Integrations
 - Video capabilities
 - Reporting
 - Compliance (ADA? SCORM? Etc.)
 - Ease of use
- Evaluate multiple options
 - Look at companies, not just features
 - RFP?

- Why Integrate with iMIS
 - Single Sign On
 - iMIS is the central authority
 - Same interface and processes for staff and members
 - Registrations completed in iMIS and seamlessly sent to LMS
 - Completion data written to iMIS from LMS
 - Reporting & Analytics

Integration with iMIS (cont.)

User Purchases Course
access through iMIS
eCommerce

At purchase, user is
created in LMS and
registered for course

User activity is created in
iMIS and updated upon
completion

- Course enrollment & completion data from Path are stored in iMIS Activity Records
- Data can be reported on with IQA (Intelligent Query Architect) or other tools
- Completion data can be cross-referenced against purchases and other data.

Reporting (cont.)

Combining iMIS data with LMS course data products a wealth of information, reports, dashboards and other business analytics to gauge the effectiveness and reach of your eLearning efforts.
