

# IQA... 1,2,3. Getting Started Using the Intelligent Query Architect

Prepared by  
Association Technology Solutions

we can solve it.

# Welcome

Presenter: Jim Dalessio

Moderator: Ben Zastrocky

Subject Matter Expert: Isaac Oliveras

# Deconstructing an IQA

- \* The different parts of an IQA:

- Summary – Naming conventions and descriptions

- Sources – Intro to Business Objects

- Filters – Paring down needed information

- Display – Showing the fields that you want to see on your report

- Sorting – Ordering the fields for more efficient viewing

# Demo

I'll now show a demo of how to create an IQA

we can solve it.

# Use case examples of IQAs in action

Looking under the hood of a couple out of the box IQAs.

# Questions and Answers

I'll take a few minutes to answer some questions

we can solve it.

# Thank you

If you need help creating an IQA or would like a more comprehensive training session, please contact [help@atsol.org](mailto:help@atsol.org) and someone will get back with you as soon as possible to assist.
